

ELIJAH MARIZ OMBAO

RMT, MLS(ASCP)^{CM}, DHA Licensed

+971 52 552 7709	oelijahmariz@gmail.com	Al muraqqabat, Dubai
------------------	------------------------	----------------------

Objective	Registered Medical Technologist (RMT), MLS(ASCP)CM, and DHA Licensed professional with one year of hands-on hospital-based clinical laboratory experience. Completed three comprehensive internships, including a hospital laboratory setting, an international training in Thailand, and a clinical internship, strengthening expertise in phlebotomy, clinical chemistry, clinical microscopy hematology, immunology and serology, blood banking, and quality control. Dedicated to delivering accurate diagnostic results, ensuring compliance with international laboratory standards, and contributing to the high-quality patient care provided by leading healthcare institutions in Dubai.
-----------	--

Education	<p>Mountain View Village School</p> <p>March 2016 Elementary & Highschool Bataan, Philippines</p> <p>Asia Pacific College of Advance Studies</p> <p>March 2018 Senior Highschool – STEM strand Bataan, Philippines</p> <p>University of Baguio</p> <p>August 2023 Bachelor of Science in Medical Laboratory Science Baguio, Philippines</p>
-----------	--

Laboratory Skills	<p>Ability to Multitask Strong attention to details Phlebotomy (Venipuncture & Arterial Blood Collection) Newborn blood extraction for screening test Molecular biology specimen collection (Swabbing) Adaptability Sterile Technique Quality Control and Regulatory Compliance Laboratory Information System (LIS) proficiency</p>
-------------------	---

Experience	<ul style="list-style-type: none">Performed phlebotomy procedures, including venipuncture, arterial blood collection and arterial blood gas (ABG) analysis, demonstrating precision, patient care, and adherence to safety protocols.Collected blood samples for newborn screening tests, ensuring accuracy, timeliness, and compliance with quality standards.Conducted and analyzed laboratory tests in clinical chemistry, hematology, clinical microscopy, clinical microbiology, blood banking, immunology, and serology, utilizing laboratory information systems (LIS) and following standardized procedures.Prepared and examined slides for histology and pathology under supervised training, showcasing attention to detail and technical competency.Executed specimen collection for molecular biology testing (e.g., swab sampling) while maintaining specimen integrity, proper labeling, and accurate documentation.Applied quality control measures, maintained sterile technique, and ensured regulatory compliance in all laboratory activities.Performed and monitor ongoing tests to ensure optimum analytic performance is maintained according to specified quality control policiesMachine Operated:<ul style="list-style-type: none">Hematology: Beckman coulter analyzer DxH 600, Mindray BC-5000, Celltac Es MEK 7300, Dymind Df50, Wondfo OCG 102, SYSMEX CA 660Clinical Microscopy: Cobas U411Clinical Microbiology: BACT/ALERTClinical Chemistry: Cobas 6000, Cobas e411, Cobas integra, Ellipse – Bavaria Combinindo, Easylyte, CBS-40, EDAN i15, VIDAS, Mindray BS-240, Wiener CM 250, Lifotronic GH-900 PlusImmunology and Serology: VIDAS, Lamuno X, Lamuno Pro, Erba Mannheim ELAN 30s, Lifotronic eCL8000
