📍 1205 , Hamdan khalifa building, Al Nahda 2, Dubai, UAE

👤 Pavithra Dhananjani

## PROFILE

Dedicated ICU Nursing Officer with 4 years of experience providing critical care to surgical, medical, and transplant patients. Proficient in basic life support (BLS), ventilator management, intravenous therapy, central and peripheral line care, and complex wound management. Experienced in operating CRRT and dialysis machines, monitoring vital signs, and delivering evidence-based care for COVID-19 patients. Collaborative team player, skilled in mentoring junior staff, maintaining accurate patient records, and ensuring compliance with clinical protocols, hospital policies, and ethical nursing standards.

## PROFESSIONAL EXPERIENCE

### NURSING OFFICER

APR 2021 - PRESENT

#### NATIONAL HOSPITAL OF SRI LANKA - COLOMBO

- Provide comprehensive ICU care to critically ill surgical and medical patients, including general surgery, ENT, faciomaxillary, vascular, organ transplant, gynecology, genitourinary, plastic, and burn cases.
- Perform venous cannulation, intravenous drug administration, and manage central and peripheral lines with strict adherence to safety protocols.
- Monitor and care for patients with Nasogastric, PEG, Jejunostomy, Nasojejunal, and other feeding tubes, ensuring proper placement and functionality.
- Assist in specialized procedures such as bronchoscopy, percutaneous tracheostomy, and complex wound care under senior supervision.
- Operate and monitor critical care equipment, including CRRT and dialysis machines, for renal support in ICU patients.
- Deliver evidence-based care to critically ill COVID-19 patients, maintaining infection control and safety protocols.
- Observe, record, and analyze patient vital signs and clinical parameters to ensure timely interventions and optimal recovery.
- Administer medications accurately and monitor patient response, maintaining compliance with hospital policies and clinical guidelines.
- Collaborate with multidisciplinary teams to develop and implement patient care plans, improving outcomes and ICU efficiency.
- Train and mentor junior nursing staff in ICU procedures, equipment handling, and patient care standards.
- Maintain meticulous patient records, prepare reports, and ensure adherence to legal, ethical, and professional standards in critical care.
