

DRISHYA P

Registered Nurse – Critical Care (ICCU) | DHA Eligible | Dataflow Verified

I am a compassionate and highly skilled Registered Nurse with over two years of hands-on experience in intensive coronary care environments. I bring practical expertise in managing critically ill cardiac patients, responding effectively during emergencies, and supporting complex clinical interventions with confidence and precision. My experience includes continuous monitoring, advanced life support, and coordination with multidisciplinary teams to ensure safe and effective patient outcomes. I focus on delivering patient-centered care while maintaining clinical accuracy, clear communication, and emotional support for patients and families. I am now seeking an opportunity in Dubai where I can contribute my clinical knowledge, DHA eligibility, and commitment to high standards of healthcare delivery.

CORE COMPETENCIES

Critical Care Nursing

Cardiac Monitoring & ECG Interpretation

Emergency Response & Code Blue Management

Care Planning

Ventilator & Airway Management

Medication Administration & IV Therapy

Infection Control & Patient Safety

Patient Assessment

Clinical Documentation & EMR Systems

Multidisciplinary Team Collaboration

Pain & Palliative Care Management

WORK EXPERIENCE

Registered Nurse – ICCU

Meitra Hospital

September 2024 – December 2025

Calicut, Kerala, India

Achievements/Tasks

- Provided comprehensive care to critically ill cardiac patients, ensuring continuous monitoring and timely clinical intervention
- Monitored vital signs, ECG patterns, and hemodynamic status, promptly reporting abnormalities to physicians
- Administered medications, IV infusions, and emergency drugs with strict adherence to safety protocols
- Assisted in life-saving procedures including defibrillation, intubation, and central line placement
- Operated ICU equipment such as ventilators, infusion pumps, and cardiac monitors efficiently
- Delivered pre- and post-procedure care for angiography, angioplasty, and pacemaker patients
- Participated actively in Code Blue emergencies and resuscitation procedures
- Educated patients and families on treatment plans, recovery processes, and lifestyle modifications

Registered Nurse – ICCU

Malabar Medical College

January 2023 – March 2024

Calicut, Kerala, India

Achievements/Tasks

- Conducted continuous patient assessments and updated individualized care plans based on clinical conditions
- Coordinated diagnostic procedures including laboratory tests, imaging, and specialist consultations
- Provided education to patients and families regarding disease management, medications, and discharge care
- Supervised and guided junior nursing staff to maintain ICU protocols and standards
- Maintained accurate clinical documentation and ensured compliance with hospital policies
- Assisted in post-procedure recovery care for cardiac interventions and critical conditions
- Ensured strict infection control and biomedical waste management practices
- Participated in quality audits and compliance checks to improve care standards

EDUCATION

Bachelor of Science in Nursing

College of Nursing Thalassery

Kerala University of Health Sciences, India | 2022

LICENSES & REGISTRATIONS

Kerala Nurses and Midwives Council

License Number: KL03202203925

Dubai Health Authority (DHA) – Registered Nurse

DHA Unique ID: 56760893

Valid Until: 05 November 2026

CERTIFICATIONS

Basic Life Support (BLS)

Advanced Cardiovascular Life Support (ACLS)

CLINICAL CASES MANAGED

- Acute Myocardial Infarction (STEMI/NSTEMI)
- Unstable Angina and Heart Failure
- Cardiogenic Shock and Arrhythmias
- Sepsis and Septic Shock
- Acute Respiratory Distress Syndrome and Respiratory Failure
- Acute Kidney Injury and Multi-Organ Dysfunction
- Diabetic Ketoacidosis and Electrolyte Imbalances
- Hypertensive Emergencies
- Poisoning and Drug Overdose Cases
- Postoperative and Trauma Critical Care

EQUIPMENT PROFICIENCY

- Mechanical Ventilators
- Cardiac Monitors and Defibrillators
- Pacemakers
- Infusion and Syringe Pumps
- Suction and Oxygen Delivery Systems
- Crash Cart and Emergency Equipment
- Portable X-ray Systems
- Glucometer and ABG Analyzer
- ECG Machine
- Pulse Oximeter and Capnography Monitor

KEY ACHIEVEMENTS

- Reduced ICU patient complications by 15 percent through proactive monitoring and timely interventions
- Improved patient satisfaction scores by 20 percent through effective communication and compassionate care
- Supported over 100 critical cardiac procedures with zero medication errors
- Enhanced documentation accuracy by 25 percent through consistent compliance and record management

PROFESSIONAL SKILLS
