ALLIED HEALTH SCIENCE (2021)

WORK EXPERIENCE

ANESTHESIA TECHNOLOGIST

KHYBER HOSPITAL (2 Years)

As an Anesthesia Technologist, I have gained extensive experience working in various operating theaters, including gynecology, cardiology, and general surgery. My role involved assisting anesthesiologists with the preparation and maintenanceofanesthesia equipment, ensuring patient safety, and monitoring vitalsignsduring surgical procedures. I have been integral in the setup ofanesthesia machines, preparing medications, and providing supportinthesmooth delivery of anesthesia care in diverse surgical specialties.

PAK INTERNATIONAL MEDICAL COLLAGE HOSPITAL (1 YEAR)

Assist anesthesiologists with difficult airway management invasive monitoring, and preparation/administering of anesthesia medications under supervision. Ensure compliance with safety, quality control, and infection control protocols, documenting all interventions. Maintain and clean anesthesia machines, replace components, and monitor patient vitals during anesthesia and sedation.

MEDICSI HOSPITAL (1 YEAR)

Assisted anesthesiologists in Endoscopic surgical procedures, Plastic Surgery, General Surgery, and ENT procedures, preparing and maintaining anesthesia machines, ventilators, and monitoring equipment. Ensured availability of sterile anesthesia supplies, monitored patient vitals during surgeries, and provided support in postoperative recovery while adhering to DHA standards and infection control protocols.
