Email	kk0883730@gmail.com	Location	Dubai, UAE

PROFESSIONAL SUMMARY

Anesthesia Technician with more than 4 years of clinical experience in tertiary-care hospital settings. Experienced in operating theatre support across general surgery, gynecology, cardiology, endoscopic, plastic surgery and ENT procedures. Skilled in anesthesia equipment preparation and maintenance, patient monitoring, airway support, anesthesia medication preparation, infection control and emergency response. DHA eligible and available to join immediately.

CORE ANESTHESIA SKILLS

- Anesthesia machine, ventilator and monitoring equipment preparation
- Airway management support and difficult-airway preparation
- Anesthesia drug preparation and administration under supervision
- Patient vital-sign monitoring during anesthesia and sedation
- OT preparation and anesthesia equipment troubleshooting
- Preoperative and postoperative anesthesia support
- Emergency response in anesthesia
- Sterilization, infection control and safety protocols

PROFESSIONAL EXPERIENCE

MEDICSI HOSPITAL

Anesthesia Technologist | February 2025 – February 2026

- Supported anesthesiologists during endoscopic, plastic surgery, general surgery and ENT procedures.
- Prepared and maintained anesthesia machines, ventilators and monitoring equipment.
- Ensured availability of sterile anesthesia supplies and monitored patient vital signs during surgery.
- Provided postoperative recovery support while following DHA standards and infection-control protocols.

KHYBER HOSPITAL

Anesthesia Technologist | January 2023 – February 2025

- Worked in operating theatres including gynecology, cardiology and general surgery.
- Assisted anesthesiologists with anesthesia equipment preparation and maintenance.
- Supported patient safety and vital-sign monitoring during surgical procedures.
- Prepared anesthesia machines and medications and supported delivery of anesthesia care.

PAK INTERNATIONAL MEDICAL COLLEGE HOSPITAL

Anesthesia Technician | December 2021 – January 2023

- Assisted anesthesiologists with difficult-airway management, invasive monitoring and anesthesia medication preparation/administration under supervision.
- Maintained and cleaned anesthesia machines, replaced components and monitored patient vitals during anesthesia and sedation.
- Followed safety, quality-control and infection-control protocols and documented interventions.
