PROFESSIONAL PROFILE

Medical Doctor with an international medical education completed in English, having graduated from the Carol Davila University of Medicine and Pharmacy in Bucharest, Romania, followed by medical registration and professional clinical training in Italy. I will complete my Specialist Training in Occupational Medicine at the Università Politecnica delle Marche, Italy, in November 2026.

I have approximately four years of experience in Continuity of Care / out-of-hours medical services, providing community-based medical care, clinical assessment of acute and non-acute conditions, home visits, management of urgent presentations and prescribing.

During my specialist training, I have gained experience in Occupational Medicine, including occupational health surveillance, fitness-for-work assessments, occupational risk assessment, prevention, and health and safety in the workplace, both in hospital and occupational health prevention settings.

I also hold a Master's Degree in Aesthetic Medicine and completed practical training at Urban Medical Beauty in Rome.
